

Axtel M2 mono NC: Professional and economical solution

The M2 NC series of professional headsets is dedicated to the offices and contact centers, which aim to reduce costs still maintaining quality and durability.

M2 NC professional headsets line has all the features that ensure comfort of work. Noise-cancelling microphone of Axtel M2 NC utilizes noise reduction and works well even in noisy environment.

Wideband sound improves audibility and offers users more freedom in communication. In parallel, M2 NC line is equipped with Acoustic Protection technology, which eliminates harmful tones and guarantees the safety of use. Axtel M2 NC headset is professional and high-quality solution for a reasonable price. Functional and comfortable, it works with every telecommunication system. Universal cord QD makes it easy connectable to a deskphone, mobile phone or a computer. Ultralight construction makes it comfortable to use even during long working hours.

Additionally, soft ear cushions adjust to the ears, reducing pressure on them at the same time. It helps to customize headset according to individual needs.

Features:

- Noise-cancelling microphone
