

# Axtel PRO MS XL duo NC USB:

Solid and elegant UC set for everyday communication

PRO MS XL series was designed to achieve the best durability of use. PRO MS XL headsets utilize Plug&Play technology, thanks to which the headset can be used once connected to the computer. This series is also equipped with a comfortable remote, that enables soundless operating of the headset.

What is more, wideband stereophonic sound ensures perfect audibility of conversation. PRO MS XL with enlarged speakers eliminates noises coming from large rooms in the office and allows the existence of effortless communication with a client. PRO MS XL provides not only excellent sound quality and comfort of work, but also elegant and innovative design, that fits to every work environment.
